TECHNICAL SPECIFICATION

Rate	2 side x 60 ppm
Total Rate Operations	120 ppm
Machining Stations	2 fully independent sides
Machine Overall Dimensions	1100 mm x 2000 mm x 2000 mm
Net Weight	1600 kg
Installed Power	24 kVA
Compressed Air	6 bars

MAIN FEATURES

- Fully automatic cartridge case trimming and grooving machine
- Production counter history for the last 14 shifts by user, date, time and working hours
- Fast changeable feeders powered by Siemens motors
- Fast changeable feeders powered by Siemens's servo motors with planetary gear drive
- Tower light and HMI indicators for materials low level in feeders
- Incorrect case position detection

MACHINE FEATURES

- Continuous variable machine speed
